

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

Honorable James M. Cox,

*Governor of Ohio, Columbus,*

Sir: In compliance with the law creating the Ohio Board of Administration, we have the honor to submit the Seventh Annual Report of the Board, covering the fiscal year ended June 30, 1918.

D. S. CREAMER,

*President.*

## INTRODUCTION

---

In common with the household, the mercantile establishment and the industrial plant, the state institutions of Ohio have felt the heavy hand of the high cost of living, shortage of labor and other conditions created by the world war.

Tables in the following statistical report of the Ohio Board of Administration for the fiscal year ended June 30, 1918, show that the cost of food advanced 14 per cent during the year, fuel 26 per cent, and that the institutions housed three per cent more inmates than in 1917. Yet the operating expenses of the Board and the 20 institutions under its control advanced but 10 per cent and the per capita cost only 7 per cent. This was accomplished by sacrificing various upkeep and equipment items, without detriment to the institutions, however; by confining the purchases to absolute necessities and the employment of business-like methods, such as careful ordering, purchasing on competitive bids, discounting bills, etc.

Considering the abnormal conditions, the per capita cost for the year ended June 30, 1918, compares favorably with previous years, especially with 1911, the last year of the separate boards of managers and trustees. In keeping with economic conditions, the per capita cost for the Board's operating expenditures has steadily increased from \$189.76 in 1912, the first year the central board controlled the institutions, to \$218.58 for the year ended June 30th. Yet this is an increase of only \$1.32 over the per capita for 1911, when, with normal conditions prevailing, the per capita cost was \$217.26. In this seven year period the net saving effected by the Board amounts to \$2,975,420.10. The per capita cost in 1917 was \$203.90; seven per cent less than in 1918.

The inventory of June 30, 1918, showed that the Board has in its custody property valued at \$27,098,508.37, as compared with \$20,516,170.16 in 1911, an increase in seven years of \$6,582,338.21. In this period, there has been an increase of \$831,708.13 in land values and \$3,823,093.10 in building.

### POPULATION

The total average daily population of all the Ohio state institutions for 1918 was 23,235, as compared with 22,618 for 1917, an increase of 617, or three per cent.

The following table shows the average daily population of the Ohio state institutions for 1917 and 1918:

	1917	1918
Athens State Hospital.....	1,385	1,349
Cleveland State Hospital.....	1,752	1,745
Columbus State Hospital.....	1,820	1,845
Dayton State Hospital.....	1,279	1,245
Lima State Hospital.....	743	816
Longview Hospital.....	1,521	1,562
Massillon State Hospital.....	1,763	1,836
Toledo State Hospital.....	1,810	1,806
Ohio Hospital for Epileptics.....	1,595	1,609

Ohio State Reformatory.....	1,233	1,427
Ohio Reformatory for Women.....	54	126
Total.....	22,618	23,235

#### OPERATING EXPENSE

The entire operating expense to house, feed and clothe these wards for the fiscal year 1918 amounted to \$5,078,806.88. The expenditure for the same purpose in 1917 aggregated \$4,612,326.00, making an increase for 1918 over 1917 of \$466,480.88, or ten per cent. For all purposes the Board and institutions spent \$5,716,189.32 in 1918.

The greatest increase is shown in the expenditure for fuel. In 1917 the Board purchased fuel for the institutions at a cost of \$476,072.41. In 1918 fuel cost \$603,081.21, an increase of \$127,008.80, or twenty-six per cent.

For food supplies the state institutions in 1918 spent \$1,524,239.40, as compared with \$1,332,983.19 in 1917, an increase of \$191,256.21, or fourteen per cent. An increased farm and garden production made possible the holding down expenditures for food supplies. The Board and institutions entered the 1918 farming activities by heartily endorsing the "war garden" movement, with a view to increasing the farm and garden production, thus save thousands of dollars to the state and at the same time relieving the demand upon the open market for the enormous quantities of food stuffs required to feed the inmates of institutions.

## FARM AND GARDEN PRODUCTION

Eighteen of the state institutions cultivate more than 2500 acres of garden crops. "Give first consideration to food values. Plant crops that will yield the most food per acre," was the slogan adopted.

The success of the Board's policy is shown by the farm and garden production report for the fiscal year ended June 30th during which period the total production amounted to \$935,082.42 the largest and most profitable yield in the history of the institutions. The production was divided as follows: fruits, \$8,567.02; vegetables, \$238,813.57; forage, \$173,493.06; poultry and eggs, \$13,832.01; slaughtered products, \$138,757.38; milk and butter, \$326,160.37; natural increase in livestock, \$35,459.01.

The total expenditures in the farm and garden department during the fiscal year, including salaries, labor, rent of land and supplies, amounted to \$512,883.58, leaving a net profit to the state of \$422,198.84. The production in 1918 exceeded that of 1917 by \$109,460.18 and the net profit was \$209,554.06 in excess of that for 1917.

The farm for the Institution for Feeble-Minded shows the largest production, having raised food stuffs to the value of \$127,438.36. The Ohio State Reformatory comes next with \$106,275.93 and the others as follows: Athens State Hospital, \$78,960.30; Cleveland State Hospital, \$17,712.14; Columbus State Hospital, \$33,080.08; Dayton State Hospital, \$76,817.03; Lima State Hospital, \$33,952.79; Longview Hospital, \$20,830.82; Massillon State Hospital, \$96,580.77; Toledo State Hospital, \$65,156.77; Ohio Hospital for Epileptics, \$89,604.82; School for Blind, \$579.36; School for Deaf, \$1,337.24; Ohio State Sanatorium, \$24,986.10; Ohio Soldiers' and Sailors' Home, \$1,830.14; Madison Home, \$2,426.13; Boys' Industrial School, \$54,237.44; Girls' Industrial School, \$8,540.47; Ohio Reformatory for Women, \$6,125.70; New Prison Farm, cultivated by prisoners from the Ohio Penitentiary, \$88,610.03.

## CONSERVATION OF FOOD

By following every suggestion and regulation made by the United States Food Administration and co-operating in every way to increase the food supplies for the fighters and workers in the great world war, the state institutions of Ohio reached a high point of efficiency in the conservation of food stuffs.

Although the regulations were rigidly and patriotically imposed, the more than 23,000 wards of the state were fed just as nutritiously as before. The institutions met the call for conservation of food by reducing waste to the minimum, using substitutes suggested by the Government, reducing the per capita allowances of sugar, meats, fats, flour, etc., and observing wheatless and meatless days.

Statistics issued by the United States Food Administration show that in one ton of garbage there is sufficient glycerine to make the explosive charge for fourteen 75-millimeter shells, enough "fatty acid" to manufacture 75

pounds of soap, fertilizer elements to grow eight bushels of wheat and a score of other valuable materials essential in the manufacture of munitions.

A survey made by the Board of Administration showed that the garbage yield at the state institutions would not go far toward making these by-products. Some superintendents of institutions having herds of swine report that food waste reduced to such an extent that they had practically no slop for their herds.

The Ohio Penitentiary operates a plant for the reduction of garbage from the five state institutions located in Columbus, but was unable to run full time because of the scarcity of garbage. The State School for the Deaf, Columbus, made a food survey for one week. Every item of food that went into all of the dining rooms during the week of the survey was carefully weighed and after each meal the residued was weighed. Thus was determined not only the amount of food served, but the amount of waste. No effort was made to change the bill of fare or the regulations governing the serving of the conservation of food. The usual routine was followed. The entire residue of food for one week, three meals a day for 551 persons, was but 257 pounds, making a little more than one-half a pound of waste per week per person, or a fraction more than an ounce per day, or one-third of an ounce per meal per person.

#### INSTITUTION DAIRYING

Special attention has been given the dairy interests at the various state institutions. When the Board assumed charge in 1911 it found several of the institutions owned dairy herds, but only two had pure-bred cows. Now the state possesses ten herds of Holsteins and two mixed herds that in the 12-month period ended June 30, 1918, produced 6,101,923 pounds of the more than 8,000,000 pounds of milk consumed at the institutions. The Holstein-Friesian breed proves well fitted to the needs of large institutions. Some of the best bulls of this breed in the country are to be found in Ohio state-owned herds.

There have been some remarkable yearly milk records made by cows in the institution herds. An annual production of 8,000 pounds of milk is considered good. Piebe Marie 2nd, of the Dayton State Hospital herd, has an average of 12,080 pounds per year for three years. Her highest production was 14,743 pounds. A number of cows in this and other herds exceed 10,000 pounds of milk per year. Johanna Concordia Duchess, at the Boys' Industrial School, has a record of 16,588.4 pounds of milk in a year. Irma Johanna Concordia, of the Athens State Hospital herd, produced 37.92 pounds of butter in seven days, and it is conceded that an accident prevented her reaching better than 40 pounds. This cow has a bull calf sired by Frinderne Holigen Fayne Korndyke that is valued at \$10,000.

The inventory for the fiscal year ended June 30, 1918, shows that the state institutions own live stock to the value of \$369,016.71, divided as

follows: 1036 milk cows, \$150,521.85; 242 heifers, \$26,835.00; 121 calves, \$17,725; 48 bulls, \$15,780; 41 steers, \$4805.00; 264 horses and colts, \$36,309.50; 194 mules, \$39,390.88; 3503 hogs, \$62,206.95; 16 sheep, \$129.50; 22,405 chickens, \$14,327.01; 604 ducks and geese, \$608.96; 68 guineas \$19.90; 188 young turkeys, \$188.41; 159 miscellaneous, \$168.75.

#### EMPLOYEES IN MILITARY SERVICE

Every state institution in Ohio has contributed its full share of men and money towards the successful prosecution of the cause of the United States and her allies in the world war. Every institution is represented by employes in some branch of the military service, and through enlistment or the draft nearly 350, among them 28 physicians, have left the service of the state to go over seas or to the training camps. Included in this number are ten young women, trained at the Columbus State Hospital, now nursing the wounded in European military hospitals. More than \$400,000 has been raised at the state institutions by inmates and employes for the purchase of Liberty Bonds, Red Cross, Y. M. C. A. and other war relief needs. Nearly every institution has its Red Cross knitting unit.

The war and labor conditions are responsible for the most serious shortage of help the institutions have ever faced. In addition to those employes who have joined the colors, many others have quit their positions with the state to accept more lucrative places with the government or in war-time industries. Payroll changes in the past year have been more numerous than in any similar period in the history of the institutions. However, there is a splendid spirit of co-operation among those employes who remain.

#### MANUFACTURING

Under the supervision of the Board, the state-use system of manufacture at the Ohio Penitentiary and the Ohio State Reformatory has resulted in the saving of large sums for the various state and county institutions and department and the political subdivisions that are required by law to purchase prison-made commodities.

In addition to furnishing employment to prisoners in the two penal institutions, there are other outstanding good features of the state-use system, which superseded contract labor, abolished by an act passed by the legislature in 1906. The dependents of the prisoners thus employed receive ninety per cent of the inmates' earnings allowed them under the provisions of the prisoners compensation law, which to a considerable extent relieves the demands upon local charities; large saving is effected by the state manufacturing articles for its own and county consumption, and the institutions and departments receive a better class of merchandise than can be bought in the open market at the same price.

The industries at the two penal institutions have been developed rap-

idly by the Board. In 1911 the manufacturing department resources amounted to \$377,862.56. On June 30, 1918, these resources amounted to \$976,278.99, an increase in seven years of \$598,416.43.

The sales of manufactured products of the Ohio Penitentiary, the Ohio State Reformatory and the State Brick Plant for the year ended June 30, 1918, reached a total of \$637,359.69.

Following were the sales at the Penitentiary: Soap, \$71,830.79; Repair Department, \$7,879.59; Tinware, \$5,537.53; Knitting Mill, (underwear and hosiery) \$52,885.95; Power Plant, (furnishing light and power to penitentiary, state house and other state institutions located in Columbus) \$39,724.39; Stone Quarry, \$15,686.57; State Shop, (gloves, shirts, mattresses, etc.) \$41,235.81; Carpenter Shop, \$13,854.86; Woolen Mill, (blankets, cloth, etc.) \$103,693.15; Printing Department, \$1,677.68; a total of \$354,005.82.

Sales at the Ohio State Reformatory aggregated \$223,806.53, divided as follows: Clothing, \$91,479.27; Furniture, \$49,626.13; Printing, \$26,138.04; Shoes, \$56,563.09.

Sales at the Ohio State Brick Plant, Gables, Ohio, operated by the labor of prisoners from the Ohio Penitentiary, totaled \$59,547.34. This plant not only produces all the building brick required in several institutions throughout the State, but also has supplied considerable numbers of paving block, which it can turn out at the rate of 30,000 per day. These paving block have been shipped all over the state and while no efforts have been made to secure large contracts on road work, yet the assistance that this brick plant is able to give the state highway department is invaluable.

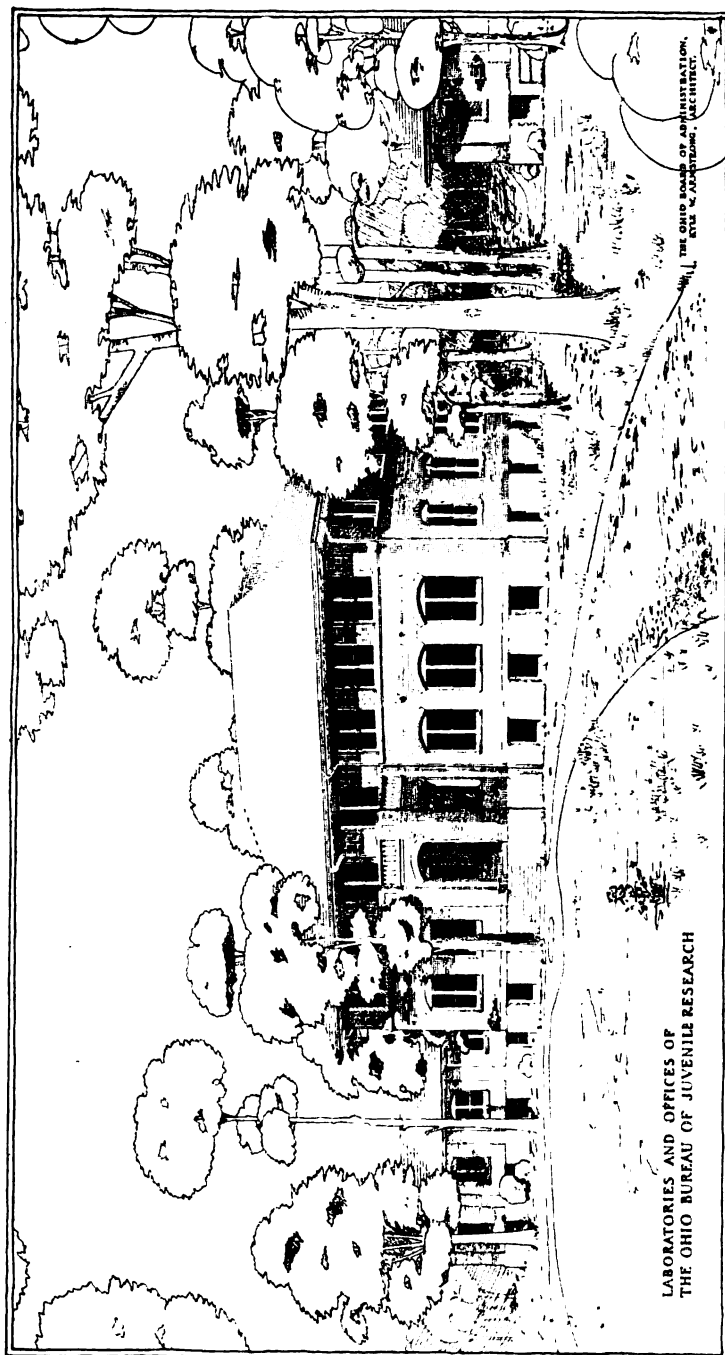

#### NEW INDUSTRIES

The industrial activities at the Ohio Penitentiary were extended during the past year, four important departments being installed. One of these is for the manufacture of automobile licence tags, which are now being produced by the state for the calendar year 1919 at a cost that will mean a large saving, compared with the prices that the state has paid to outside firms.

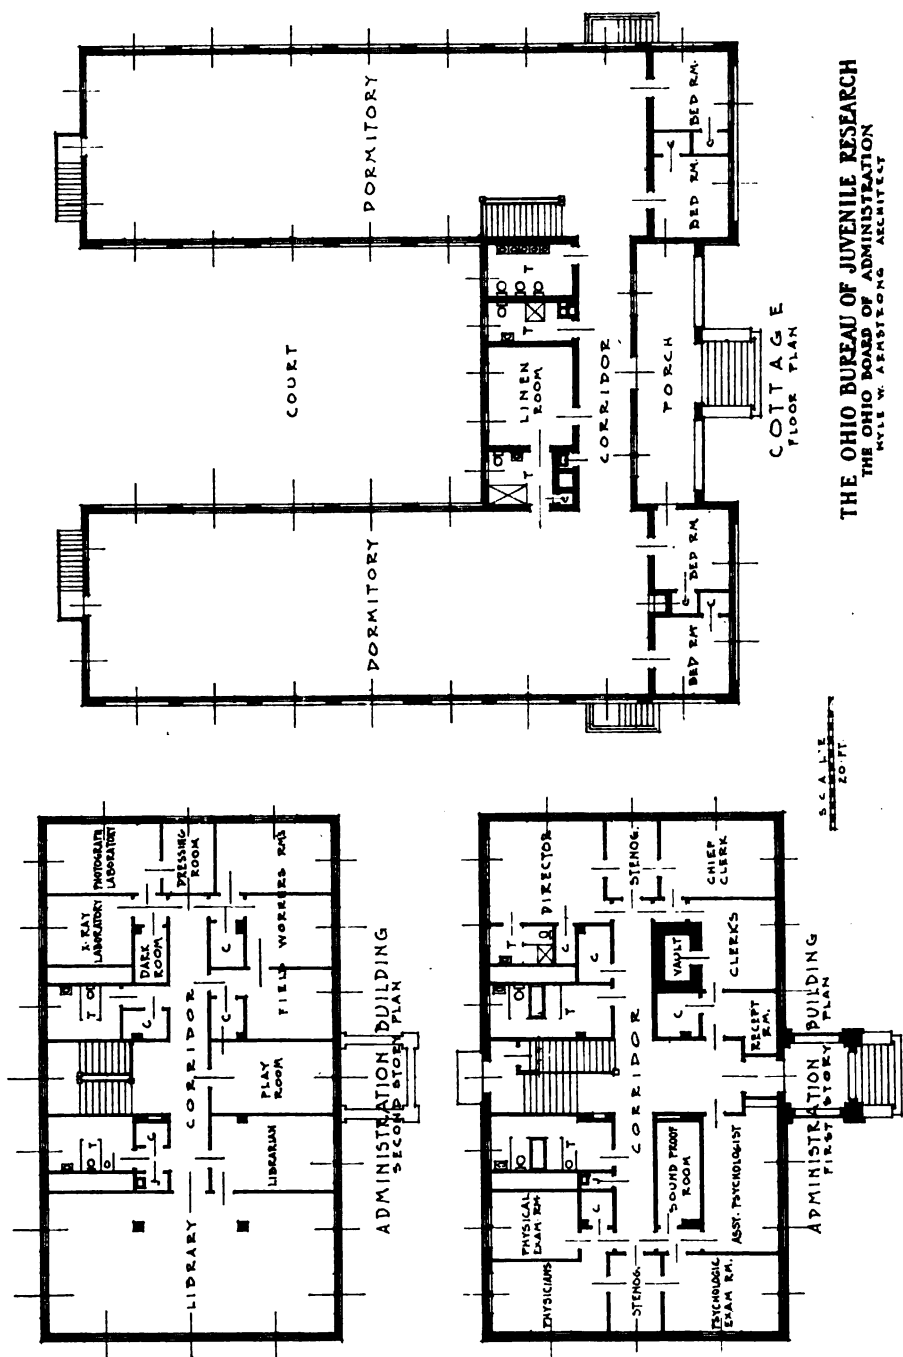

Metal road and street signs also are now being manufactured at the state prison. The signs are of steel, with drilled in letters and figures. When finished the lettering is done in aluminum paint upon a background of black, making the signs easily read. Concrete posts on which the signs are mounted, also are made at the prison.

Another important addition at the penitentiary is a cotton mill. For several years the woolen and knitting mills have turned out blankets, underwear, hosiery, cotton flannel, etc., of an excellent quality, but it has been necessary to buy on the open market the yarns and warps entering into the making of these goods.

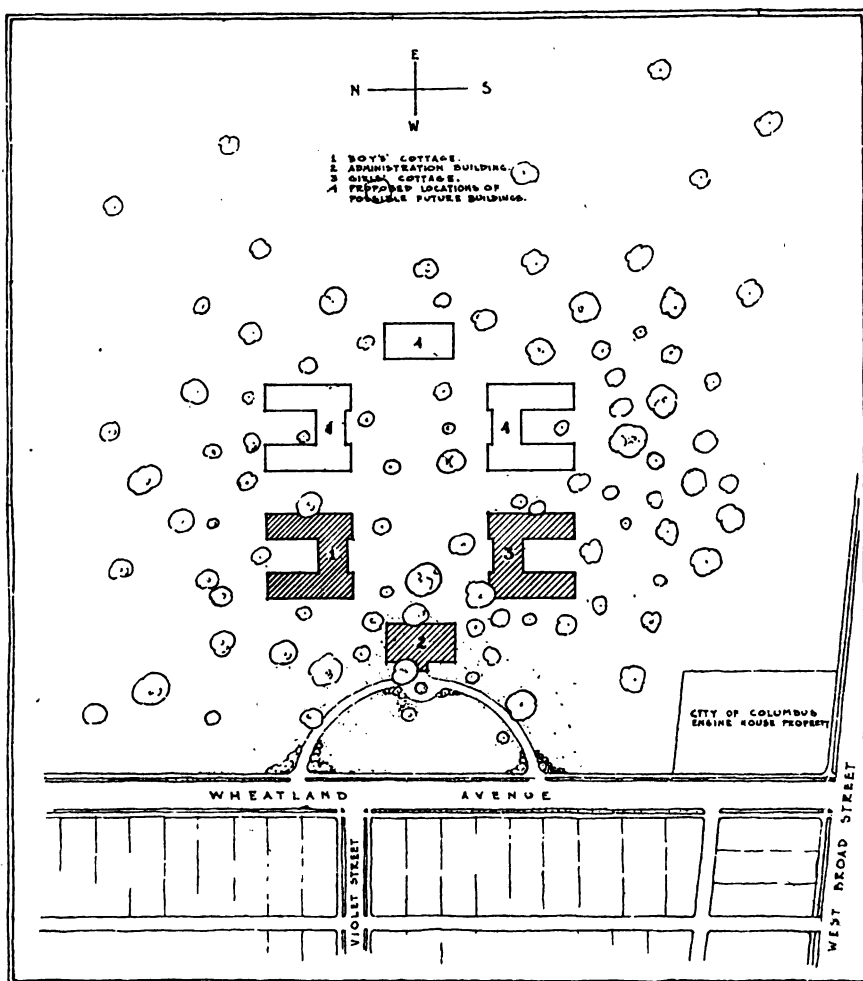

The scarcity and high price of yarns prompted the Board to install a modern 1140-spindle cotton mill, which will use 250,000 pounds of raw cotton a year in making yarns.

THE OHIO BUREAU OF JUVENILE RESEARCH  
 THE OHIO BOARD OF ADMINISTRATION  
 NYLE W. ARMSTRONG ARCHITECT

A garbage reduction plant was added to the prison soap factory. Garbage from the various state institutions in Columbus is reduced at the penitentiary, the grease extracted entering into the making of soaps the tankage being used on the state-owned farms.

#### BUILDING PROGRAM

The building program of the Board during the fiscal year ended June 30, 1918, called for an expenditure of \$477,005.30 and \$14,900 was spent for new lands. Practically all buildings now in course of construction are being erected with the aid of prison and other inmate labor according to plans and specifications prepared by the engineering department of the Board. Through the services of its own architect, engineers and building superintendents and with inmate labor, the Board is enabled to erect buildings at a considerable saving. The brick is produced at the state brick plant and a large part of the finishing lumber is milled at the Ohio Penitentiary. Similar economies are made use of as far as possible.

#### BUREAU OF JUVENILE RESEARCH

The Ohio Bureau of Juvenile Research is now established on a permanent basis. On May 1, 1918, Dr. Henry H. Goddard assumed charge of the bureau as director, coming to Columbus from the Training School at Vineland, N. J., where for 12 years he was director of the department of research at that institution. Dr. Goddard is a recognized authority and a well known and much quoted author on the problem of dealing with delinquents and defective.

With his staff of assistants, Dr. Goddard will occupy offices at the Ohio Board of Administration building until the buildings of the Bureau are completed. The bureau's administration building and two cottages, one for boys and one for girls, are now being erected on the grounds of the Columbus State Hospital, an appropriation of \$100,000.00 being available for that purpose.

The administration building will occupy the position of prominence at the front of the group and the cottages will be located at the sides and to the rear, facing each other across a quadrangle. The administration building will be occupied by the executive staff of the bureau, field workers, photograph and X-Ray laboratories, examination rooms, play room, etc. On the second floor, where light from the north will be available, will be a large library, which will no doubt rapidly become known throughout the country for the unusual and very valuable information and records which will be accumulated there. The general laboratories will be in the basement.

Each of the two cottages is designed to house fifty children, but twice that number will be accommodated if necessary.

In spite of the fact that it is not considered probable that additional

housing facilities will be needed, the planning and the grouping of the buildings has been studied to make possible a future development and extension as a natural expansion of the present scheme.

The general scheme and the plans for these buildings were studied, contract-drawings and specifications developed and in fact all architectural service rendered by the Ohio Board of Administration's own organization. The construction of the buildings themselves is being handled under the direction of the Board.

#### DEATHS AND RESIGNATION

Death claimed Thomas E. Davey, a member of the Board, on February 20, 1918. Mr. Davey was a member of the original Ohio Board of Administration, having been appointed by Governor Judson Harmon in 1911 and serving continuously until his death. He was reappointed on February 1, 1914, and again on February 1, 1918. Mr. Davey was succeeded by Dr. Edward Reinert, of Columbus.

After thirty-seven years' service as superintendent of Longview Hospital, Cincinnati, Dr. Frank W. Harmon resigned on April 17, 1918, and was succeeded by Dr. Emerson A. North.

\*Of the number, 43 were women and 1 were men at other institutions. For details listed on page 127.  
 For details listed on page 128.

TABLE VII—A

In the following table is set up first the Per Capita Cost of Conducting the Twenty Institutions for the year 1911, the year previous to the time the Board of Administration took over the public Institutions of the State. Against this is shown Per Capita for 1912, 1913, 1914, 1915, 1916, 1917 and 1918, and the difference in the Per Capita Cost each year of the Board's Administration as compared with the Per Capita Cost under Boards of Trustees.

The difference each year, multiplied by the average daily population during the year shows the saving to the State, the saving in the seven years under the Administration of this Board being \$2,975,420.10. This saving is shown against a constantly rising market since 1911 for all classes of supplies, materials, etc.

## I—Movement of Population for Year Ending June 30, 1918

[illegible]

உ. பி. முருகன்

[illegible]

# Reports *of* Institutions

(149)

# The Athens State Hospital

---

Located on a high plateau about one mile distant from the city of Athens. Created by an Act of the General Assembly passed April 13, 1867. First patients were received on January 9, 1874.

Acres, 965. Farm production, \$66,147.66.

Total valuation, \$1,612,785.11.

Inmates, 1,349.

Employees, 180.

Dr. O. O. Fordyce, Superintendent.

(151)

## SEVENTH ANNUAL REPORT OF

TABLE 1

Showing movement of population for period of one year beginning July 1, 1917, and ending June 30, 1918

	Men	Women	Total	Men	Women	Total
Remaining June 30, 1917.....	693	681	1,374			
On temporary leave .....	13	1	14			
Total on records .....				706	682	1,388
Admissions during the year—						
Committed patients .....	141	114	255			
Voluntary patients .....	2	5	7			
Total admissions .....				143	119	262
Entire number under care.....				849	801	1,650
Removed—						
Recovered .....	66	47	113			
Improved .....	22	18	40			
Unimproved .....	1	4	5			
Died .....	76	53	129			
Transferred .....	8	1	9			
Total removed .....				173	123	296
Total on record June 30, 1918.....				676	678	1,354
On temporary leave .....				14	1	15
Remaining June 30, 1918 .....				662	677	1,339
Average Daily Resident .....				673	676	1,349
Per cent of deaths based on entire number under care....				8.9	6.6	7.8
Per cent of recoveries based on admissions.....				46.2	39.5	43.1

TABLE 2

Showing results since opening of Institution

	Men	Women	Total	Men	Women	Total
Total number admitted .....				6,870	5,650	12,520
Removed -						
Recovered .....	2,460	2,007	4,467			
Improved .....	801	707	1,508			
Unimproved .....	516	493	1,009			
Died .....	2,067	1,506	3,573			
Transferred .....	336	255	591			
Not insane .....	11	4	15			
Habeas corpus .....	3	0	3			
Total number removed .....				6,194	4,972	11,166
Remaining June 30, 1918 .....				676	678	1,354

*Athens*

TABLE 3

Showing Forms of Mental Diseases in Patients Admitted During the Year Ending June 30, 1918

Forms	Men	Women	Total
Infection and Exhaustion Psychoses—			
Acute Confusional Insanity .....	1	...	1
Febrile Delirium .....	2	...	2
Post-febrile Insanity .....	1	1	2
Toxic Psychoses—			
1. Alcoholism—

# The Columbus State Hospital

---

This is the oldest but one in the state, and was opened in 1838. The hospital was originally located in East Columbus, near Broad and Lexington, but the original building was burned in 1868, and the institution was then removed to its present location in West Columbus. At the time of its completion the present main hospital building was the largest structure for the care of the insane in the world. Its outer wall measures a mile and a quarter. There are now a number of cottages on the ground.

Acres, 304. Farm production, \$33,080.08.

Total valuation, \$2,677,905.49.

Enmates, 1845.

Employees, 230.

Dr. Wm. M. Pritchard, Superintendent.

(169)

## The Dayton State Hospital

---

Located about three miles southeast of Dayton. Opened in 1855. The original building was constructed on the Kirkbride plan, but a number of cottages have been added. The institution farm consists of nearly 600 acres and is one of the most fertile tracts of land owned by the State.

Acres, 764. Farm production, \$70,848.93.

Total valuation, \$1,441,189.48.

Inmates, 1,245.

Employees, 184.

Dr. E. A. Baber, Superintendent.

(179)

## Longview Hospital

---

An institution for the insane located at Carthage, near Cincinnati. Established in 1821 as a County institution. Did not receive State support until 1861, when a law was passed providing that the cost of maintenance be borne by the State. The Ohio Board of Administration pays all maintenance expenses, but the buildings and grounds are owned by Hamilton County. Admissions are restricted to residents of Hamilton County.

Acres, 188. Farm production, \$20,830.82.

Total valuation, \$1,500,000.00.

Inmates, 1,562.

Empolyes, 149.

Dr. E. A. North, Superintendent.

(189)

# The Lima State Hospital

---

Authorized by the General Assembly in 1904. Construction began August 14, 1908, and was ready for the reception of patients April 1, 1914. First patient was admitted July 10, 1914. Located three miles north of Lima and is for the custody, care and special treatment of insane persons of the following classes: First, persons who become insane while in the Reformatory or Penitentiary; second, dangerous insane persons in other state hospitals; third, persons accused of crime but not indicted because of insanity; fourth, persons indicted but found to be insane; fifth, persons acquitted because of insanity; sixth, persons adjudged to be insane who were previously convicted of crime; seventh, such other insane persons as may be directed by law.

Acres, 574. Farm production, \$32,158.38.

Total valuation, \$2,220,747.67.

Inmates, 816.

Employees, 160.

Dr. C. H. Clark, Superintendent.

## The Ohio Hospital For Epileptics

---

Located one mile northeast of Gallipolis. When opened in 1893 it was the first institution of this character in the United States. It is built on the cottage plan.

Acres, 664. Farm production, \$64,234.27.

Total valuation, \$1,362,614.21.

Inmates, 1609.

Employees, 245.

Dr. G. G. Kineon, Superintendent.

## SEVENTH ANNUAL REPORT OF

## The Institution for Feeble-Minded

---

Located in West Columbus. Created by an Act of Legislature in 1857, and was opened in August of that year in rented buildings on East Main Street, Columbus, Ohio. It was removed to its present location on West Broad Street in 1868. In 1898 the Legislature appropriated funds for the purchase of the Custodial Farm of 1,248 acres at Orient.

Total acres, 1,879. Farm production, \$127,438.36.

Total valuation, \$2,078,626.04.

Inmates, 2,264.

Employees, 302.

Dr. E. J. Emerick, Superintendent.

# The State School for the Blind

---

Located in Columbus, and was opened in 1937. This was the first school for the blind in America to be maintained entirely at State expense. The purpose of the institution is to assist its pupils to become useful, self-supporting men and women. Blind adults are no longer admitted to this institution, as these are now cared for by the State Commission for the Blind.

Acres, 11. (No farm).

Total valuation, \$745,897.86.

Pupils, 182.

Employes, 88.

C. F. F. Campbell, Superintendent.

(245)

On temporary leave (summer vacation).....	95	86	181
Remaining in Institution .....	3	....	3
Average daily resident .....	94	88	182

# The State School for the Deaf

---

Located in Columbus. Opened in 1829, it being the oldest benevolent institution in Ohio. The School receives, free of charge, all children more than seven years of age who are too deaf to be educated in the public schools, and who are of sound mind and free from offensive or contagious disease. Pupils may remain at the school 13 years.

Acres, 10. (No farm).

Total valuation, \$1,019,075.34.

Pupils, 472.

Employes, 120.

J. W. Jones, Superintendent.

## The Ohio Soldiers' and Sailors' Home

---

Located near Sandusky, Erie County. Opened in 1888 for honorably discharged soldiers and sailors who have been citizens of Ohio for one year, who are unable to support themselves and are not entitled to admission to the National Military Home. Disabled members of the Ohio National Guard were also admitted if injury resulted from service to the State. The institution is built on the cottage plan of stone quarried on the home grounds. There are eighteen of these cottages. The hospital will accommodate about three hundred beds and there is also a cottage for the women nurses.

Acres, 98.50. Farm production, \$1,830.14.

Total valuation, \$866,323.47.

Members, 1,057.

Employes, 304.

General W. R. Burnett, Commandant.

## ADJUTANT'S YEARLY REPORT

Number on rolls June 30, 1917.....	1,287
Gained by admission .....	266
Gained by re-admission .....	184    450
Total cared for during the year.....	1,737
Loss by discharge (own request) .....	262

## The Madison Home

---

Located one mile north of Madison. Was established in 1890 by the National Women's Relief Corps and was national in character, occupying two buildings erected in 1845 and 1850 by the Madison Seminary and transferred, with ten acres of land, by the Board of Directors to the National Women's Relief Corps as an inducement for establishing the Home at that place. The first applicant for membership under the National Association was admitted September 8, 1890. In 1892 the State of Ohio erected what is known as the Ohio Cottage at a cost of \$30,000.00. In 1904 the Women's Relief Corps, no longer financially able to support the Home, conveyed the buildings and grounds, to which they had added five acres, together with all real and personal property, to the State of Ohio, the State accepting the transfer by an act of the legislature passed April 15, 1914. It is maintained for army nurses and the wives, mothers and widows of Ohio soldiers, sailors and marines who are unable to support themselves.

Acres, 15. Farm production, \$2,229.18.

Total valuation, \$66,186.55.

Inmates, 28.

Employes, 19.

O. W. Kneale, Superintendent.

# The Ohio Penitentiary

---

Located on West Spring Street, Columbus. The original Ohio Penitentiary was built in 1813 at a point about a mile to the south of its present location. The present Penitentiary was opened in 1834. The institutional parole or so-called honor system has been largely developed in the Ohio Penitentiary. There have been periods during which more than five hundred prisoners have been assigned to employment outside the institution, the majority of them being at widely scattered points of the State. Manufacturing is conducted under the State-Use system.

Acres, 24.

Total valuation, \$1,578,591.97.

Manufacturing Department Sales, \$154,005.82.

Inmates, 2000.

Employees, 120.

P. E. Thomas, Warden.

## SCHOOL REPORT

Guard teachers employed .....	4
Inmate teachers employed .....	11
Inmate clerks, employed .....	2
Inmate janitors, employed .....	2
Total yearly attendance .....	1,559
Total number dismissed .....	1,202
Present attendance .....	357
Yearly cost of supplies .....	\$186.46

Of those leaving school about 95% have been recommended for remunerative jobs in the various departments of the institution; part of the remaining 5% were released and the remainder excused from further attendance by reason of some disability.

Our law provides that each student is entitled to thirty days good time for each forty weeks acceptable school attendance, and of this number 216 have received such merit.

## PROTESTANT CHAPLAIN'S REPORT

## Library Statistics

Total number of books in Library June 30th. 1918.....	10,516
Classical Fiction.....	268
Juvenile.....	461
Intermediate.....	3,118
Travel and Adventure.....	123
Biography.....	294
History.....	397
Poetry.....	144

## The New Prison Farm

---

Located a mile and a half northwest of London, Madison County. Consists of 1,448½ acres purchased for \$250,340.00 under an act of the Legislature passed April 19, 1913. It is on this site that a new Ohio Penitentiary, plans of which have been prepared, will be erected. Since the date of purchase the tract has been devoted to dairying and field and garden crops under the management of the Warden of the Ohio Penitentiary, the prisoners from that institution being employed in the farm and garden activities.

Farm production, \$88,610.03.

Total valuation, \$351,125.09.

P. C. Herron, Farm Superintendent.

## The Ohio State Reformatory

Located two miles northwest of Mansfield. Opened September 17, 1896. Only males between ages of sixteen and thirty, not known to have been previously convicted of a felony, with the exception of those convicted of murder in the first or second degree, are admitted. All sentences indeterminate.

Acres, 636. Farm production, \$106,275.93.

Total valuation, \$2,319,245.06.

Manufacturing Department Sales, \$223,806.53.

Inmates, 1,427.

Employees, 99.

Dr. J. A. Leonard, Superintendent.

## The State Brick Plant

Located two miles from Junction City and about forty miles southeast of Columbus, on the Baltimore and Ohio Railroad. Leased by the Ohio Board of Administration in April, 1914, and operated by labor of prisoners from the Ohio Penitentiary in the manufacture of building and paving brick. The plant is located on a tract of thirty-five acres and the shale from which the brick is made is considered some of the finest in the State for that purpose.

Sales of brick, \$59,547.34.

Wm .M. Arehart, Superintendent of the plant.

(313)
